CAREER OBJECTIVE

Motivated Artificial Intelligence and Data Science student seeking an opportunity to apply skills in Python, data analysis, and visualization while gaining practical industry experience and enhancing technical knowledge.

EDUCATION

B.Sc Artificial Intelligence and Data Science (Pursuing)

Saveetha College of Liberal Arts and Science 2027

Higher Secondary Education (12th Grade)

St. Mark's Matriculation Higher Secondary School, Katpadi, Vellore 2024 – 72.3%

Secondary Education (10th Grade)

St. Mark's Matriculation Higher Secondary School, Katpadi, Vellore 2022 – 77.2%

PROJECT

Logistics Shipment Data Analysis

• Performed exploratory data analysis on logistics shipment datasets

• Developed interactive dashboards using Power BI

• Used Pandas and Matplotlib for data cleaning, analysis, and visualization.

• Analyzed delivery performance factors including distance, traffic, weather, and shipping costs.

TECHNICAL SKILLS

Programming Languages: Python, SQL, C, C++

Data Analysis & Visualization: Power BI, Microsoft Excel

Python Libraries: Pandas, Matplotlib

Tools & Platforms: Google Colab

Databases: MySQL

CERTIFICATIONS

Data Analytics with Python – NPTEL

Completed a 12-week course covering Python-based data analysis, visualization, data manipulation, and analytical techniques

Cloud Computing – NPTEL

Completed a 12-week course covering cloud concepts, service models, virtualization, and cloud infrastructure technologies

SOFT SKILLS

• Analytical Thinking • Problem Solving • Attention to Detail • Quick Learner
